WHY CHOOSE Direct to Garment

Direct printing offers vivid, crisp reproduction of text and images. While vinyl overlays can reproduce a nice image (assuming the original file is a high resolution or vector image) it won't be as sharp or vibrant as direct printing

Huskies aim for first provincial championship

After a historic season that was capped off with a Senators Cup win, nothing would seem sweeter than the Fort St. John Huskies bringing home a provincial championship for the first time. The club qualified for Alberta Junior B Provincial Championships after winning the North West Junior Hockey League finals last weekend and is now preparing for Alberta's best teams. Head coach Todd Alexander says he is excited to see how the team's system works and how the boys are against competition they're not used to. "The style of hockey itself is a little bit different. There's more possession, there's more skill, a little bit more speed in the play," said Alexander. Each game in the round-robin tournament will feel like game seven of the playoffs, adds Alexander. The coach says adjustments will be made in-game when needed, but he trusts that the current squad can handle any type of situation. "Our preparation is basically just worrying about ourselves and playing our game, making sure that we're doing the things that make us successful. And we'll see where the cards lay after that." The tournament takes place in Wainwright, Alta. from March 31st to April 3rd.

Something tells me I need to lose some weight. During a recent trip to visit my son and his family, I stopped off at a bakery to pick up dessert. After scanning the display case, I settled on a dozen pound-cake cupcakes. The clerk's pleasant response: "Is that for here or to go?"

Before every city had a Walmart, most Americans got their stuff from mail-order catalogs, such as Sears. Among its many, many offerings were so-called "kit houses," or entire homes that were shipped on a train. You had to assemble the house yourself using the 75-page instruction book. It was like Ikea on steroids.

Q. What's the difference between a shamrock and a bread knife that gets used a lot? A. The shamrock is a four-leaf clover, and the knife is a four-loaf cleaver.

To provide safe passage to squirrels attempting to cross the N44 motorway, Netherlands officials built a rodent-only bridge. While it may have been a kind-hearted gesture, it might not have been the most economically sensible one: costing £120,000, over a two-year span the bridge was used by just five squirrels in two years. "In 2014 three squirrels, and in 2015 two squirrels, were spotted on the bridge," the government said in a statement.

While David Bowie's trio of albums recorded in Berlin are considered among his best work, it's not the only legacy he has in the German city. In 1987, his performance of "Heroes" in front of the Reichstag as part of the Concert for Berlin, was loud enough and close enough to the wall to be heard in East Berlin (where such music was forbidden). It sparked a police crackdown, and, according to The Guardian, "Many of the eyewitnesses claim that the violent police crackdown on the third night of the concerts... were crucial in changing the mood against the state.

The Great Pyramid of Cholula, located in Cholula, Puebla, Mexico, is the largest pyramid in the world and—with a base four times the size of the Great Pyramid of Giza—also happens to be the largest monument ever constructed. Part of the reason it's not better known is that it's partially buried under a mountain.

When Queen Elizabeth paid a royal visit to the set of Game of Thrones in Northern Ireland, she refused to sit on the Iron Throne for legal reasons. As series co-creator David Benioff told Esquire, "Apparently the Queen of England is not allowed to sit on a foreign throne... This is an esoteric rule we didn't know about until that moment."

Considering a rooster's call can reach 140 decibels or louder, it might leave one to wonder how the rooster itself keeps from going deaf when that noise is coming right out of its beak. It turns out, the farm fowl have built-in earplugs. Researchers found that when a rooster opens its beak to crow, its external auditory canals close off, preventing sound from coming in and doing any damage.

A man's bragging about his promotion to vice president got so out of hand even his wife was annoyed. "Look, being a vice president isn't that special," she said. "They even have a vice president of peas at the supermarket!" Not believing her for one second, the man called the supermarket and demanded, "Get me the vice president of peas!" The clerk replied, "Fresh, canned, or frozen?"

"The most difficult thing is the decision to act, the rest is merely tenacity."

The price of candy at the movie theater is ridiculous. They're always raisinet!

"I believe that if you'll just stand up and go, life will open up for you. Something just motivates you to keep moving."

The mother of modern physics was known for her work with radioactive materials and the discovery of elements like polonium and radium. Unfortunately, her research took a hefty toll on her health, leading to aplastic anemia, which caused her death. The exposure to radioactivity didn't just affect her, it also affected most of her belongings, including her clothes, furniture, and books. Now, more than a century later, Marie Curie's notebooks have to be stored in a lead box, as they are still radioactive (and will be for another 1,500 years!).
